

# The LaborCoin DAO Attestation

I affirm my support for democratic worker organization,  
transparent collective governance, and mutual aid.

I understand that LaborCoin is designed to strengthen  
collective economic power through shared participation,  
coordination, and long-term solidarity.

I support the principle that shared resources should be  
used to assist workers engaged in strikes, labor actions,  
mutual aid efforts, and other forms of collective support.

I recognize that proposals involving treasury funds  
should prioritize legitimate worker-centered initiatives  
and transparent community accountability.

Participation in LaborCoin is voluntary and intended  
to strengthen cooperation, democratic governance,  
and collective power.

Power to the People!
